ONE

Background to Epos Now

Epos Now is a leading point of sale provider, specialising in affordable and flexible point of sale solutions for businesses in the retail, hospitality, and personal care sectors.

Founded in 2011, we have gone on to help a worldwide community of over 55,000 businesses in over 70 countries harness the power of cloud POS technology to compete with established high street giants and realise their broader business objectives.

Our intuitive and easy-to-use POS systems facilitate smart inventory control every element of their operation from any location, and on any device. Our POS systems facilitate smart inventory control, custom reporting, and staff & customer management, as well as integrations with ecommerce, delivery, and collection partners.

Future-proofing businesses with a multi-channel solution

Now more than ever, it's vital for retail and hospitality businesses to open multiple revenue streams to remain resilient and future-proof.

App integrations

We've integrated with hundreds of industry-leading app partners to ensure that our customers have access to the best online ordering, delivery, ecommerce, CRM, marketing, and accountancy integrations.

Our app partners have been carefully selected to make sure Epos Now customers are able to:

- Synchronise your online and physical locations
- Gain new customers and revenue streams
- Drive repeat business with loyalty schemes
- Connect to world-class ecommerce and food delivery platforms
- Gain a competitive advantage and compete with the giants

Swift and secure transactions

Though a range of partner payment integrations, we give Epos Now merchants the power to offer customers a range of payment options. These include cash, credit and debit cards, gift and loyalty cards, and contactless payments for fast and secure transactions.

Accurate accounting

Card machine and POS integration guarantees 100% accuracy

Faster payments

Integration cuts transaction times in half, helping merchants serve more customers

Eliminate errors

Our POS systems generate the exact amount every time, removing the risk of human error

Safer interactions

Contactless payments and remote ordering technology results in safer experience for customers and staff

A more intuitive point of sale solution

Our systems are designed to be simple, accurate and easy to use.

Business owners and staff members can be fully-trained in as little as 15 minutes, and our intuitive tills mitigate the risk of human error.

Epos Now systems deliver fast-close tender keys, rapid reordering functions, and quick tab-to-table order transfers.

They also ensure that every item is sold for the correct price. Staff members can quickly switch between orders and can even be prompted to up-sell and cross sell with the inclusion of pop-up notes.

Users report a **30% speed increase**

10% saving for reduction in human error

Staff are trained in **15 minutes**
